Education

Indian Institute of Technology, Bhubaneswar
B.Tech in Computer Science and Engineering

July 2024 – Present
CGPA: 9.26/10

DR Rizvi Learners' Academy
Senior Secondary Board Examination, Class XII (CBSE)

2022
Percentage: 93.7%

DR Rizvi Learners' Academy
Secondary Board Examination, Class X (CBSE)

2020
Percentage: 95.4%

Key Skills

Programming Languages: C, C++, Python
Frameworks & Libraries: Scikit-Learn, Pandas, NumPy, XGBoost, LightGBM, TensorFlow, Matplotlib, Seaborn, Streamlit
Core Computer Science: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Discrete Mathematics
Deep Learning & Tools: ANN, CNN, RNN, LSTM | Git, GitHub, Jupyter Notebook, Google Colab, VS Code

Projects

Customer Churn Prediction System *Python, Scikit-Learn, XGBoost, LightGBM, Streamlit*
Ensemble Learning, Machine Learning, & Predictive Modeling

- Engineered an end-to-end ML pipeline with an ensemble architecture over a dataset of 7,000+ customer records.
- Executed exploratory data analysis (EDA), automated data cleaning, and strategic feature engineering updates.
- Optimized classifier setups to yield a performance threshold of 0.85 F1-score, 0.84 Recall, and an ROC-AUC of 0.758.
- Architected an interactive live web dashboard using Streamlit to facilitate seamless real-time inference testing.

Movie Recommendation System *Python, Pandas, NumPy, Scikit-Learn, Streamlit*
Natural Language Processing, Feature Engineering, & ML

- Developed a content recommendation pipeline processing the comprehensive TMDB corpus of 5,000+ movies.
- Implemented vectorized text preprocessing to clean and convert variables including genres, keywords, cast, and overviews.
- Deployed high-dimensional cosine similarity calculation matrices to map real-time item recommendation updates.

Parking Lot Management System *C++, STL, Object-Oriented Programming*
Data Structures & Object-Oriented Programming (OOP)

- Programmed a terminal application simulation supporting dynamic slot allocation, real-time fee calculations, and logs.
- Applied strict OOP paradigms and optimized STL containers to significantly reduce tracking overhead and system latency.

Achievements

- ICPC Regionalist:** Chosen to represent IIT Bhubaneswar at ACM-ICPC Amritapuri and Kanpur-Mathura Regional Contests.
- LeetCode Knight:** Attained the Knight badge (Peak Rating: 1900+), parsing over 400+ advanced algorithmic problems.
- JEE Advanced:** Secured an exceptional All India Rank (AIR) 6054 in JEE Advanced 2024 among 250,000+ candidates.
- JEE Main:** Attained a stellar 99.3 percentile in JEE Main 2024 out of more than 1.4 million national applicants.
- Competitive Profiles:** Maintained competitive placements with a max rating of 1708 (Specialist) on Codeforces and 1445 on CodeChef.

Positions of Responsibility

Publicity Group Head — *Abhivyakti, IIT Bhubaneswar* *Sep 2024 – Present*

- Spearheading strategic publicity initiatives, brand guidelines, and outreach configurations for institute literary events.

Organizing Committee Member — *Litspreet & Kavyanjali, IIT Bhubaneswar* *2024 – 2025*

- Coordinated multi-tiered festival operations, logistics workflows, and vendor engagements to boost participant turnout.
